DALLAS WOMAN KILLED WHEN AUTOMOBILE DIVES

DALLAS, Texas, June 12.—Miss Willie Mae Greer, 24, was killed and four companions were seriously injured when their car left a bridge and plunged forty feet into a ravine near here. Others are suffering internal injuries. Morris Bruce is not expected to live. The driver missed the bridge when he attempted to avoid another car parked on the road.

Republicans Are Not Running For Vice Presidency

CLEVELAND, June 12.—Three of the most prominent Republicans in the country have now had the vice presidential nomination served up to them on a platter, and have sent the platter back.

Frank O. Lowden, former Governor of Illinois, was the first to have the vice presidential dish set before him. He refused it.

Herbert Hoover was next tried. He also declined.

Then it fairly hurled at the head of Senator Borah with positive statements from administration sources that Borah would accept it. Borah dodged.

Earthquakes Are Shaking Balkans

ROME, June 12.—Newspaper dispatches tell of severe earthquake shocks, resulting in much damage and probably heavy loss of life in the Balkan peninsula. The population of the shaken center is camping in the woods.

LA FOLLETTE AND JOHNSON GET FEW VOTES WHEN VOTE ON PRESIDENTIAL CANDIDATE

CLEVELAND, June 12.—Amid tumultuous cheering Coolidge was nominated almost unanimously.

Johnson received ten South Dakota votes. LaFollette received six North Dakota votes and twenty eight Wisconsin.

After nominating Coolidge a recess was taken until 3:30 when the candidate for vice-president will be chosen. Last minute conference of Coolidge leaders understood to have decided on Judge Kenyon of Iowa instead of Curtis of Kansas. Senator Smoot of Utah said Kenyon's nomination is virtually certain.

The situation is in a turmoil.

Wealthiest Men Read Newspapers For G. O. P. News

NEW YORK, June 12.—The three richest men in America are content with the daily newspapers account of the Republican National convention and are not tuning in on their Radio sets with the broadcasting stations.

Secretaries of John D. Rockefeller, J. Pierpont Morgan and Henry Ford told the United Press that their respective employers were "Getting the proceedings from the newspapers" and that it "Seemed to be covered pretty fully in them."

DR. COOK REFUSES TO GET OUT OF PRISON

FORT WORTH.—Dr. Frederick A. Cook was reading a magazine in his cell when he was offered his liberty by the six prisoners who broke jail here. "No, thanks," said Cook, "If I can't get out without breaking jail, my good friend, Judge John M. Killitts, will see that I'm taken care of."

WASHINGTON, June 12.—(United Press.)—The wire in the White House telegraph room today clicked off a message for Calvin Coolidge, saying, in its cool, impersonal way, words to this effect:

"You have been nominated."

Behind that message lies the romance of the poor boy who came at last to the greatest eminence his nation knows. With those words opened a vista through which he could see ahead the goal of a full term of that high place— a term in his own right. Between him and that lie the obstacles of the campaign, but in great moments men do not see obstacles, but only goals.

The Calvin Coolidge who today got that massage is an older, somewhat wearier man than he who was called by the sudden turn of destiny to occupy the White House in August, 1923. He has had, between then and now, the burden of the presidency upon his shoulders and his heart, and the thrill that today's message brought must have been tempered somewhat by knowledge. The President knows that he faces a fight for election and that, if he is elected, his pathway will be a hard one.

Four years ago, in Chicago, "Jimmy" Reynolds had Calvin Coolidge's presidential boom in his pocket. Reynolds didn't tell it abroad at first, but that boom was really a vice-presidential boom, and with consummate skill he worked things so that Coolidge was the vice-presidential nominee.

In March, 1921, Mr. Coolidge took his oath as president of the senate and assumed the not too arduous but rather deadening duties of that office. He succeeded the effervescent Tom Marshall, whose sense of humor was so active that not even senate routine could dull it.

But Mr. Coolidge seemed not to mind the dragging hours of senate debate, or the more or less purposeless parliamentary bickerings. He applied himself from the beginning to mastering the intricacies of senate rules, and so well succeeded that he was voted a fair and intelligent presiding officer. Too, he afforded occasional glimpses to some of the senators of a Coolidge they did not suspect—one with a sense of humor and a chatty humanness. He came to be well liked, and was always respected, though he was not, as Marshall had been, a "chummy" vice-president.

Called to Presidency.

When, in the early morning of Aug. 2, 1923, Mr. Coolidge was notified of the death in San Francisco of Presi-

WISCONSIN CONGRESSMAN HISSED BY DELEGATES BUT APPLAUDED AND CHEERED BY CONVENTION VISITORS

By PAUL R. MALLON
(United Press Staff Correspondent)

CLEVELAND, Ohio, June 12.—A platform, following completely the desires of President Coolidge stands adopted by the Republican convention, which will name the President as the party's standard bearer today.

After hours of wrangling within the resolutions committee the platform was finally presented and adopted at last night's session. A mighty shout of "Ayes" greeted the question for adoption. A defiant shout of "No" came in answer from the Wisconsin delegation.

And back of this defiant shout was the drama of the present ticket being present to the country at the progressive meeting here July 4, and headed by Senator LaFollette.

The spirit if this movement which gripped the huge convention hall last night was perfectly typified by an erect silver haired and grey bearded man who stood in the flood lights before the thousands of men and women and presented a cause that he knew was doomed to defeat. He was congressman Henry Alen Cooper of Wisconsin. There was on bitterness in his mein or utterances as he faced the convention delegates who at times hissed and booed him. His was a spirit of tolerance, of salm confidende.

"Socialism" they shouted at the aged Congressman as he read the Wisconsin platform, which he presented as a minority report to the convention.

"Yes, they called it socialism when Wisconsin first advocated the direct election of senators by the people," Cooper calmly replied.

"Socialism" they shouted again.

"Yes they called it Socialism when Wisconsin returned her first minority report in 1908," the dignified solon responded again, "but every plank but one in that first protest is now the law of the land."

Whether they agreed with his principles or not the galleries liked Representative Cooper. They cheered him. Former Congressman Campbell of Kansas, parliamentarian of the convention stepped out on the runway two or three times, touched him on the arm and asked him not to step away from the amplifiers. The crowd thought Campbell was "calling time" on the aged speaker. Shouts of "Let him alone," "Gon on," and hisses for Campbell swept down from the rows of seats that stand tier on tier in the great hall.

Campbell sought to let the crowd know by pantomine that he was not interfering with Cooper, but merely guiding him that his unseen audience of thousands of others might hear.

Prior to Cooper's reading of the Wisconsin platform, the convention had its demonstration during the reading of the administration platform which was adopted. The demonstration lasted about fifteen minutes and followed the first mention of the name of President Coolidge by Chairman Warren of the resolutions committee. The band played, the organ boomed, state standards were pulled pu and men and women joined in shouting and cheering as flood lights swept the hall. The Wisconsin delegation had no part in this demonstration. Every delegate sat silent in his seat. Other delegates swarmed about the Wisconsin representatives. Governor Blaine grasped the standard firmly and held it in place to prevent anyone from tearing it away and joining in the parade. Singing started. For one part of the gallery came: 'Hail, hail, the gang's all here," "all except Wisconsin."

THE WEATHER.

East and West Texas.—Tonight and Friday generally fair and continued warm.

LaFollette Men Silently Vote For Their Man

CLEVELAND, June 12.—La Follette progressives staged their final silent protest against the steam rolling convention when they agreed to cast their ballots for La Folletee as the presidential candidate and for Senator George Norris as the vice presidential candidate. The delegation will make no nominating speeches, merely signifying its objections to the regular republican plans by ther ballots.

REPUBLICAN LEADERS URGE BORAH AS RUNNING MATE FOR COOLIDGE BUT WHEAT BELT DON'T LIKE IT

(United Press Staff Correspondent)

MUNICIPAL AUDITORIUM, CLEVELAND, Ohio, June 12.—"Coolidge and Borah" was the assured Republican ticket for a brief spell early today—but, as the National convention swung into its concluding deliberations, the ticket began to look more like "Coolidge and ....." At one of those early in the morning in an out of the way room conference, which have become an institution in the history of Presidential nominations, Borah was selected at 1:30 this morning by Coolidge leaders to receive the vice presidential nomination. It was all carefully arranged. The plan had received the OK of Wm. M. Butler, of Frank B. Stearns, Secretary Weeks, in whose room the deciding conference was held, Chas. D. Hillis, Senators Pepper and Reed of Pennsylvania, Secretary Mellon, Senator Wadsworth and others. The situation, it was said had been thoroughly canvassed and Borah undoubtedly was the man needed. Furthermore, it was pointedly explained, no man would be thus suggested by such a notable gathering of party managers unless they knew he would accept.

Robert J. Bender.

Everyone was surprised and some of the delegates, particularly those from the 13 Wheat States which had organized a bloc with the idea of selecting one of their Middle Western number to run with Coolidge, were angry.

These latter, after holding a meeting at which they voted former Senator Kenyon as their first choice and Senator Curtis as their second choice sent a committee down to advise the Weeks conference of their attitude. Before they could report to that conference, however, Weeks had "Reported out" Borah as the choice of the Coolidge managers.

The Wheat-state bloc committee then plodded back to their conference, took three ballots on the question of supporting Borah, declined to approve the selection—and went to bed around 3 a. m.

This morning they woke up all wary and bright again. It seemed that sometime during the lapse of time between 1:30 and 3:00 a. m. Borah hearing of the action taken at the Weeks conference had rushed thru telephone and telegraph messages to the leaders here reiterating previously tendered declinations of the second place position.

"Absolutely, positively and unalterably no," said Mr. Borah—thereby joining the refrain previously started by Frank O. Lowden, joined in by Secretary of Commerce Hoover no later than yesterday and now swelled to added volume by Mr. Borah.

So, the final session of the Republican National convention, which before dawn today, appeared likely to end in jig time approved of a ticket signed to satisfy East and West alike, opened its doors with vast uncertainty about the personnel of its ticket.

Now it appears to be anyone's race again—with Senator Curtis of Kansas, Judge Kenyon of Iowa and Albert Beveridge, of Indiana, once more occupying centers of the conjectural stage. As one administration leader remarked when he found his own vice presidential candidacy had been overlooked entirely in the Weeks conference, "These certainly be strange days—and even odder nights."

A record crowd was moving early toward the convention hall for the final deliberations of the G. O. P. and selection of its campaign ticket.

$1100 Postoffice Goes A Begging

BRECKENRIDGE, Texas, June 12.—When the day came for civil service examinations to select a post-master for the Ivan postoffice at a salary of $1100 a year there were no applicants.

For a time it looked as if the job would go begging, but L. D. Kennedy, former postmaster who had resigned, reconsidered his resignation and again took up the work of looking after the Ivan post office.

Rough Dry

TEN YEARS AGO THEY SAID SHE COULDN'T LIVE!

BUT MRS. GREER TURNED TO TANLAC AND GOT IMMEDIATE RELIEF.

"After I had suffered for ten years all the tortures stomach trouble and rheumatism can cause a person, my husband did the least expensive and yet the most wonderful thing in all his efforts to save my life when he bought me Tanlac," recently said Mrs. N. M. Greer, 20 West Cole St., McKinney, Texas, in a vivid and impressive account of her experiences with the famous medicine.

"As long as ten years ago, I was told I couldn't live and at times since then I have been so low that everyone thought I was gone. I could not eat anything but malted milk and butter-milk and I had starved until I was nothing but a shadow, only weighing 90 lbs. Besides that, I had rheumatism so bad that for three years I sat in my chair unable to get up, and I could not lie down for smothering spells. I could hardly bend my back, my arms were so stiff I wasn't even able to lift a cup to my mouth, and my legs were terribly swollen and utterly useless.

"My husband spent thousands of dollars trying to save me and I suffered so I prayed to die, but when Tanlac began helping me, I was one of the happiest women in Texas. In a short time, I was eating heartily and after I had taken seven bottles, I hadn't a sign of stomach trouble or rheumatism; I was walking about as well as anyone, doing all my housework, and my weight had gone from 90 lbs. to 140 lbs.—a gain of 50 lbs. It has been three years since then and I have now passed my 65th birthday but I am still feeling fine. All my friends know that what I have said is true and I want the whole world to know that Tanlac saved my life."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills are made and recommended by the manufacturers of TANLAC.—(Adv.)

They Will Run Without Gas

EL PASO, June 12.—When Leland Hart returned to where he had parked his auto and found it gone, he immediately notified the police.

At midnight the long arm of the law found his car, head-on against a front porch of a house.

Hart had parked his car at the top of a hill. It had started on a tour of its own and finally nestled against the porch. The occupants of the house heard the thud, but thought it was just an explosion nearby.

"For Mexia, I WILL"

THOUGHT FOR THE DAY.

There is an honor in business that is the fine gold of it; that reckons with every man justly; that loves light; that regards kindness and fairness more highly than goods or prices or profits. It becomes a man more than his furnishings or his house. It speaks for him in the heart of everyone. His friendships are serene and secure. His strength is like a young tree by a river.—Anonymous.

DENGUE FEVER AND MAD DOGS

Those interested in public health in Texas are warning Texans to fight flies in order to avoid another Dengue fever epidemic. Those interested in human welfare first and all the time are urging that all dogs be vaccinated against going mad. It is claimed that there are more mad dogs in Texas today than known before. Pasteur Institute at Austin is crowded with their victims. Both of these possible menaces, now known, may be averted by common sense practices.

The other day, Dr. R. E. Cromean killed a dog that was suffering from rabies. The animal was near the Majestic hotel and began to snap and bite and show evidences of a real case of rabies. The doctor didn't try to inject a vaccine into the canine but did apply a rock with deathly force to his head. He simply used the munition used by David in a battle with Goliath but had to throw more than once to hit his mark. All dogs should be watched carefully and if their symptoms warrant fear the precaution of putting them out of the way of helpless women and children should be applied.

As to the flies, there are many traps here as elsewhere that afford places of interest to flies and where they accumulate, multiply and are magnified.

Poorly kept premises, unkept vacant lots, water puddles, trash, unsanitary alleys, all are breeding places for these millions of pests which fly away with the health of people.

Old tire casings, looked upon generally as an innocent looking thing, are menaces. They often fill with water and raise mosquitoes.

The recent rains have done more than fill tire casings. They have provided mosquito hatcheries in tubs, barrels, tin cans, roof gutters and flower jars. The precautions are simple. Empty out all the water that is not absolutely necessary. Put kerosene or other oil on water that must be saved, or cover the container so tightly that no mosquitos can lay eggs upon the water. The watering trough or tub of the family cow is a real danger. It should be completely emptied and cleaned every few days.

The appearance of Dengue in the state warrants the beginning now of an effort to keep it out of Mexia. The best way to keep Dengue out is to keep the fly out that brings it here. Cooperation with the City Sanitary Department in this respect means the saving of many dollars to Mexia citizens and what is more valuable still, the lives of our dear ones.

The Old Gray Mare Band is getting deeper and deeper into politics. Texans who saw the poise of the Old Gray Mare herself at Waco recently, when the Democratic State Convention was held there, are now anxious that there be some good old fashioned horse sense shown at the event soon to be held in Madison Square Garden and so are raising a fund to carry the band and the animal to the convention center.

Peaches, home grown and luscious, are now reaching local markets. Some of the finest yet seen here were brought in this week by Mrs. J. W. Stubenrauch. They were up to the usual high Stubenrauch standard. There's nothing finer than a good peach unless it is another peach or a big Texas watermelon.

"Prohibition has done more for thrift than all the Poor Richard almanacs ever printed and more for 'better, safer work' than all the 'safety first' propaganda; it is the first and only 'all wool' thinner out of jails, poor houses and asylums."—The Index, Williamsport, Penn.

The payroll of the cotton mills in Gastonia, North Carolina's textile center, totaled nearly $10,000,000 in 1923. Mexia's cotton mill will soon be going up. Other mills will follow. Mexia will grow as the payroll increases.

THE EDITORIAL OF THE DAY

THE MELLON STANDARDS.

(Congressman Frear, Wisconsin.)

One may believe that following a legislative gift of $500,000,000 by repeal of the excess-profit tax by business in 1922 Lincoln would have frowned giving a further tax reduction of 50 per cent to men of great wealth and only 25 per cent to those least able to pay, as proposed by the Mellon plan, with a threat from big campaign contributors not to play or pay unless given special financial privilege? Among these campaign contributors $1,000,000,000 of admitted error by Secretary Mellon in revenue estimates becomes a tribute to his scientific accuracy when instructing congress on taxation, while to them four-fifths of the house are politicians, and Mellon of anti-soldier tendencies is the genuine patriot when a soldier's relief is before congress, whether it be a Bursum bill or a soldier's bonus measure. Congress has repudiated the Mellon's standards on taxation and soldiers' relief.

Lovalty to those who are loyal will work reciprocal prosperity.

By N. P. Houx.

WITHOUT COMMENT

After a careful study of the provisions of the bonus bill as passed by Congress over the President's veto, we are able to offer veterans of the World War, without charge, the following advice as to the best method to figure out how much they'll get: Take your army serial number and divide it by the square root of 965. Add to that five times the age of Andrew Jackson when he first had the mumps, subtract 16 and multiply by the difference between the ages of Zev and Methuselah. Then divide by the number of grains of wheat in .754 of a bushel of oats and multiply by the number of mosquito bites a man six feet tall and weighing 178 pounds can get in four hours and fifteen minutes on the Ninnesach River on August 15, 1924. Subtract the value of a German mark, if two plus forty-eight equals seven. If not, add ten times the amount you cheated the government out of on your 1923 income tax return. Then throw the entire calculation away and pray.

CONVENTION SIDELIGHTS

CLEVELAND, June 10.—(United Press.)—Many distinguished folk are here for the convention. Most of the members of the cabinet who could get away, and the big Republican figures in congress are on the ground.

Mrs. Florence Harding, widow of the late President; Mrs. Alice Roosevelt Longworth, and the wives of senators are among box-holders. Some of the latest things in summer finery will be shown at social events planned by Cleveland hostesses for the convention period.

The main problem of the convention leaders is to keep it here long enough to let Cleveland hotel keepers and business men come out even by getting back the money they put up to insure the convention for the city. Unless some totally unexpected problem arises, leaders do not see how they can keep the convention beyond Thursday night, but they will try to hold it over Friday.

C. Bascom Slemp, President Coolidge's secretary, and William M. Butler, his campaign manager, and the incoming chairman of the national committee, are the handshakers-in-chiefs at the Coolidge headquarters. The President will be kept fully informed of what goes on.

The more you help home interests the better Mexia will get.

May Wettest Month Of May In 6 Years

GROESBEC, Texas, June 12.—The monthly summary from the local weather station by H. P. Adams, Meteorologist, shows the May just past to have been the wettest May since the establishment of the local aerological station six years ago. There was a total rainfall of 7.29 inches during the month against 0:46 inches during the same month in 1923. May of 1923 showed the smallest rainfall during the six year period. There were twelve sunny days and nineteen that were cloudy at least part of the time, and rain fell during ten of these days. There was hail on two days and thunderstorms on eight. Highest relative humidity was 99% on the 3, 7, 26 and 29th and the lowest was 28% on the 15th.

NOTICE TO ALL CORPORATIONS IN THE FIRST DISTRICT OF TEX.

Forms 707 and 708 for filing Capital Stock Tax Returns with Collector of Internal Revenue, Austin, Texas, covering the period July 1, 1924, to June 30, 1925, under Section 700 of the Revenue Act of 1924, have been revised and it is anticipated that by July 1, 1924, they will be ready for delivery to all corporations.

On account of the unavoidable delay in getting the revised forms ready for distribution in sufficient time to enable corporations to file the Capital Stock Returns during the month of July, the time for filing is extended to September 30, 1924.

It will be noted, therefore, that no penalties will be incurred where a corporation files its Capital Stock Tax Return for the fiscal year ending June 30, 1925, provided the return reaches the Collector's Office at any time on or prior to September 30, 1924.—James W. Bass, Collector.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, billiousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Bennetts Drug Store.

Public School Work Planned by Masons

(Masonic News Bureau)

DALLAS, Texas, June 12.—What will be termed "Public School Week" in the Masonic Lodges of Texas will be observed from June 23-28. A special Masonic Service and Educational Bulletin on the subject of "The Part Masonry Had in Founding the Free School System of Texas."

This Bulletin will show a large number of Masonic free schools in operation in Texas before 1860. In some localities Masons not only defrayed the expenses of the schools, but often the Master of the lodge taught the school.

In addition to bringing up the facts concerning the early history of the free school system of Texas, the Bulletin will contain other valuable information concerning the public free school system of today and what Masons can do to improve it. Every Masonic lodge in the State has been requested to put on this program or co-operate with its nearest neighbor in so doing.

Mrs. Roy Sparks and daughter, Marguerite, of San Benito, California, are visiting in the home of Mr. and Mrs. Fred Klotz.

FOLKS DON'T THINK BLOTCHES ARE PRETTY

You can't expect people to say you are "good-looking" as long as your appearance shows you are careless about blotches, pimples, rash "breaking out" and eczema.

You may feel like you have no hope of getting rid of those things, but you should not give up because Black and White Ointment, and Soap, are proving to thousands of people every day that they can depend on them to keep their skin clear, smooth and lovely.

Black and White Ointment and Soap are nominally priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap.—(Adv.)

Hirsh Says Greb Lag 1st; Bracadale 2nd

By FRANK GETTY
(United Press Staff Correspondent)

NEW YORK, June 12.—Maxey Hirsh, veteran trainer who has handled some of the best horses this country has produced, agrees with Sam Hildreth that Grey Lag is the fastest stake horse on the American turf.

When the question of which horse should be selected to meet Epinard, the French crack, in match races this fall was put up to Hirsh, he had no hesitation in replying:

"Grey Lag, of course. If he is fit, he is the best we have."

Sam Hildreth is handling the Sinclair colt, now 6 years old, and Hirsh says he understands Grey Lag is being "pointed" for just some such event as the Epinard matches—if these are held.

Some time ago, before the running of the Withers at Belmont Park, Hirsh was asked what colt he thought to be in the best shape for a stake race. Without considering any of the other contenders, the trainer named Bracadale.

As everyone knows, the Rancocas colt stepped on Decoration Day and ran away from the field in the Withers. Which showed that Hirsh was a prety fair judge of contempoary horseflesh, if there had ever been any doubt on that score.

Bracadale disappointed earlier in the season, but his running in the Withers left nothing to be desired.

On the form shown at that time, Bracadale was Hirsh's choice to meet Epinard if Grey Lak had to be passed up.

A second choice named by the trainer was Nellie Morse, Bud Fisher's good filly. Nellie Morse's running in the Preakness at Baltimore was something turf followers will long remember. The Fisher filly splashed home to victory over a field of highclass colts.

Shortly after Hirsh had suggested Nellie Morse as a possible American contender in an international stake race, she disappointed in the Kentucky Oaks on get-away day at Churchhill Downs, when, after leading the field all the way, she allowed herself to be nipped on the post by an outsider. However, there was more in this race than met the eye.

It would be unusual if a filly wore the silks of the United States against the pride of France, but with this year's colt running as erratically as at present, Hirsh's choice is not as unusual as it might seem.

There is no doubt but 1924 is an off year for high-class horseflesh in all three countries where racing prevails—England, France and America.

Sets New World Record in Back-Stroke Swim.

MISS SYBIL BAUER.

Miss Sybil Bauer, Illinois Athletic Club woman swimming star of Chicago, who will represent America on the woman's swimming team at the Olympics, broke her own world's record in final trials for the 100-meter back-stroke swim by going the distance in 1 minute and 22 3-5 seconds, which was 3 3-5 seconds quicker.

Lemon Must Be A Big Cheese

DALLAS, Texas, June 12.—When W. C. Lemon, vice president of the board of education, paid a visit to an elementary school in company with J. F. Peeler, district superintendent, Peeler asked the class if they recogniz ed the gentleman with him.

After a few minutes, one small boy timidly raised his hand.

"Do you know who this is? Asked the superintendent.

"No sir, but I know who he looks like."

"Who?" asked Peeler.

"Fatty Arbuckle."

HARD HITTING OUTFIELDER REPORTED BOUGHT BY MEXIA

The Greenville Morning Herald of recent date carried the picture and the following report of the sale of Ned Seely to the Mexia Baseball club:

"Ned Seeley has been sold to the Mexia Club of the Texas Association and will join that club at Austin within the next few days, it was reported from baseball headquarters last night."

Mr. and Mrs. Fred Klotz have returned from Houston where they attended the Commencement exercises of Rice Institute. Their son, Henry Klotz, completed his course of study there and received his degree with the class of around 100. He was one of the stars on the football team for Rice and won recognition by some coaches for a place on the mythical all-state eleven.

WHO'S WHO BARBER SHOPS

We wish to announce to the public that we have acquired the room formerly occupied by Mrs. W. A. Everett, next door east of our shop, and are taking out the partition and making one big barber shop out of the two rooms.

We are putting in a special department for ladies and children under the supervision of Mr. George Scroggins, who has recently completed the prescribed courses for this department. In this separate department, ladies and children can secure their barber work with all the conveniences and privacy of a modern city barber shop.

NOTICE OF CHARTER ELECTION

An ordinance ordering an election in the City of Mexia, Texas, to be held on the 7th day of July, 1924, for the purpose of submitting to the qualified voters of the City of Mexia, Texas, for the adoption or rejection of the proposed charter, prepared and framed by the Charter Commission heretofore elected, and designating the places at which said election is to be held, and appointing presiding officers thereof and declaring an emergency.

WHEREAS, on the 11th day of February, 1924, the City Commission of the City of Mexia, Texas, duly enacted an ordinance, submitting to the qualified voters of said City, at an election ordered and held for the purpose, on the 18th day of March, 1924, the question: "SHALL A COMMISSION BE CHOSEN TO FRAME A CHARTER"? and also providing for an election of fifteen members of a charter commission in case a majority of the votes cast at such election should be in favor of the choosing of such a commission, and which ordinance was duly approved and published and notices of such election were duly given as required by law; and

WHEREAS, said question was duly submitted and voted upon at said election in said city on said date, and the majority of the qualified voters voting at such election voted in favor of the choosing of a commission to frame a charter, and also a majority of the qualified voters voting at said election, voted in favor of fifteen citizens of said city to compose said Charter Commission; and

WHEREAS, said election was duly and legally held on the said 18th day of March, 1924, and results of said election was duly certified and returned to the City Commission by the proper election officers; and

WHEREAS, on the 21st day of March, 1924, this commission considered the several returns and canvassed the same, and found that there were cast, at said election, six hundred twenty-seven (627) votes, of which number five hundred five (505) votes were cast for the choosing of a charter commission, and one hundred twenty-two (122) votes were cast against the choosing af a charter commission, and this commission thereupon, by resolution, duly entered, declared that the proposition so submitted was sustained and adopted by a majority vote of the qualified voters of said city, voting at said election; and

WHEREAS, the City Commission of the City of Mexia, Texas, has examined into and investigated the regularity of the proceedings for said election and finds that the same was duly and legally held, that the notice required by law to be given has been duly and legally given, and that said election was conducted in strict conformity with all the requirements of law; and

WHERAS, each and all of said fifteen citizens, so elected, duly qualified as members of said charter commission, and met and organized the same, and duly proceeded to frame a charter for the City of Mexia, Texas, and heretofore, on the 27th day of May, 1924, as such commission, signed such proposed charter and duly provided for the submission of the same to a vote of the qualified voters of said City, at an election to be held upon the question of the adoption or rejection of such charter upon the 7th day of July, 1924; and

WHEREAS, the said Charter Commisison provided that the present City Commission shall call an election for such purpose; and

WHEREAS, the said Charter Commission will ratify and confirm and make the enactment of this ordinance its act and deed, and will make such ordinance its order for such election, all of which will be evidenced by the signature of the members of said Charter Commission appended hereto under the words: "APPROVED BY CHARTER COMMISSION"; therefore,

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF MEXIA, TEXAS:

Section 1. That an election shall be held in the City of Mexia, Texas, on the 7th day of July, 1924, at which the following proposition shall be submitted:

"Shall the charter reported by the Charter Commission to the City Commission of the City of Mexia, Texas, on the 27th day of May, 1924, and which had been prepared by the Charter Commission duly elected by the qualified voters of the city of the 18th day of March, 1924, be adopted as the charter of the City of Mexia, Texas, as contemplated and authorized by the Constitution and laws of the State of Texas, including Chapter 147, Acts of 1913, Regular Session?"

Section 2. That the polling places and presiding officers of said election shall be, respectively as follows: the polling place shall be at the City Hall, in the City of Mexia, and W. B. Kendrick is hereby designated as presiding officer.

Section 3. That said election shall be held under the provisions of Chapter 147, Acts of 1913, Regular Session, and all persons qualified to vote in said City under the laws of this State regulating general elections shall be allowed to vote.

Section 4. That the manner of holding said election shall be governed by the general laws of the State of Texas, regulating general elections, when not in conflict with the provisions of the law hereinabove referred to.

Section 5. All voters desiring to adopt a charter so prepared and reported by the Charter Commission shall have printed on their ballot the following:

OFFICIAL BALLOT

"For the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924."

And those opposed shall have on their ballots the following:

"Against the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924."

Section 6. That the action of the aforesaid Charter Commission in calling the election for the purpose hereinabove stated, and in all other respects with reference to the framing and submitting of such proposed charter, are hereby ratified and confirmed, and the said Charter Commission, or the members thereof, shall ratify and confirm all things done by the present City Commission of the City of Mexia, Texas, with respect to the matters and things dealt with in this ordinance, and shall make the same their act and deed by subscribing their respective names hereunto under the caption, "APPROVED BY CHARTER COMMISSION," and such names as so subscribed shall be published as a part of this ordinance.

Section 7. A copy of this ordinance shall be sufficient notice of said election, and thirty (30) days notice of the time and place of holding the said election shall be given by posting certified copies thereof at the places designated for holding said election at least thirty (30) days prior to the holding of said election, and by publication of such notice not less than thirty (30) full days from date of election.

Section 8. The fact that the City of Mexia is at the present time without a charter and that the public intrests require the adoption of a charter, creates an emergency and an imperative public necessity for the suspension of the rules requiring ordinances to be read upon more than one day and for the immediate taking effect of this ordinance, and such rules are hereby suspended, and it is ordained that this ordinance shall take effect immediately upon its passage and approval.

Passed and approved this the 27th day of May, 1924.

BORAH REFUSES TO SEEK POST AND FAVORS KENYON

WASHINGTON, June 12.—Senator Wm. E. Borah of Idaho, positively will not accept the Republican vice presidential nomination, he told the United Press early today.

Borah said he had instructed former Senator Beveridge at 3 a. m. to withdraw his name instantly should it be presented to the convention today.

"The reports from Cleveland that I had accepted a proffer of the vice presidency are absolutely without foundation," Borah said. "I have advised them out there that I positively will not accept it."

Asked whether he would spurn the position even if the convention should nominate him, Borah said:

"Yes, absolutely."

Explaining his request to Beveridge to withdraw his name from the convention if presented, Borah said Beveridge had called him up from Cleveland this morning to ask him if there was any truth in the report that he would accept the nomination.

Borah said he had previously telegraphed the Idoha delegation, Secretary of War Weeks, Senator Wadsworth of New York and C. Bascom Slemp the President's secretary that under no circumstances would he accept and when Beveridge called him up still inquiring, he asked him "As his friend" to go on the floor if necessary to prevent his nomination.

The Idaho Senator said he favored Judge Kenyon of Iowa for the vice presidency.

ADAPT THE CITY TO MOTOR VEHICLES

Those who planned our great cities whose traffic problems are most perplexing today, knew nothing about automobiles and trucks. They thought terms of horse-drawn vehicles which are slow moving. Today street traffic is entirely changed and yet the same streets are being used. It follows then that one of the first things cities should plan to do is to widen streets, provide for motor vehicle arteries, confine certain streets to fast-moving motor cars—in a word, adapt the city to motor vehicles.

The small city which has not yet felt any need for traffic relief will wisely look into the future and prepare now for the day when cars will be used to a greater extent than they are today.

After all an automobile is simply an investment in transportation.

WOMAN ASKS BAN ON PAINTING HOUSES BLACK

HOUSTON.—Mrs. C. O. Shoberg has asked the city council to pass an ordinance prohibiting anyone in Houston from painting a house black. In her letter Mrs. Shoberg complains that one of her neighbors has painted his house a stove black hue, spreading gloom over the entire neighborhood.

WATCHING THE SCOREBOARD

By United Press

Yesterday's hero—Alexander, of the Cubs, chalked up his eighth straight victory out of nine starts for the team winning from the Dodgers 7 to 2.

Hugh McQuillan threw away his own game with a peg to where Groh wasn't, the Giants losing to the Pirates 4 to 2.

Head being by the Senators drove Shocker, Brown's ace hurler from the mound Washington winning from St. Louis 12 to 1.

Hemsley and Hasty were hit hard by the White Sox, and the Athletics lost 10 to 2.

Young Whitehill and old Ty Cobb proved too much for the Yanks, Detroit winning the opener 7 to 2.

The Red Sox lost 5 to 4 to the Chicago Indians.

Ky Williams' single in the 13th scored two runs and beat the Reds 7 to 6.

HOUSTON.—Setting concrete without a pile driver may be tried in the ship channel here as the result of a visit to Houston of E. Bignell, Lincoln, Neb., inventor. Bignell's plan is to cast a concrete pile around an iron pipe, water is forced through and flows out at the bottom and sides of the pile, loosening the dirt. The pile will then sink of its own weight. Captain Charles Crotty, assistant director of the port declared the plan sounds reasonable.

HOUSTON.—Hill Huisley went to the jail to arrange for the release of a friend. Not only did Huisley not get his friend out but instead, was assigned to a cell himself. His arrest was made on a forgery charge.

"Prohibition has done more for thrif than all the Poor Richard almanacs ever printed and more for 'better, safer work' than all 'safety first' propaganda; it is the first and only 'all wool' thinner out of jails, poor houses and asylums."—The Index, Williamsport, Penn.

The Eleventh Danish Temperance Congress was held at Aarhus March 31st. The discussions showed harmony in interpretation of ways and means, and confidence in the future.

Albert H. Berry left Thursday afternoon for Toronto to attend Rotary International convention. He is the delegate from the Mexia club. At noon, the club heard him discuss the pegam and other matters of interest. He stated that he would make a complete report upon his return.

Find Bones Of First Americans

LOS ANGELES, Cal. (United Press.) The petrified human remains known as the Haverly group, found recently at a depth of 23 feet during excavations on the outskirts of this city, are believed to be those of men who lived on this continent from 10,000 to 25,000 years ago.

This opinion was concurred in at a recent meeting of scientists held in Washington, D. C., according to W. A. Bryant, director of the Los Angeles museum, who attended.

Dr. Bryant presented the report of Dr. Chester Stock, head of the department of paleontology of the University of California, to the scientists. The report stressed the point that the accumulation of 23 feet of sedimentary material found above the remains has apparently taken place after their lodgment where they were found.

In an investigation now being conducted, it is hoped to more closely determine if the bones are of pleistocence origin.

RECEIPT FOR KILLING THE GRASSHOPPER

The hot and dry weather is said to be favorable to the farmers of this section who have had too many grasshoppers on their hands since the heavy rains of the prolonged wet spell. The pest made considerable inroads into a number of fields. Many tried the following recipe with success:

Wheat bran, 24 pounds,
White arsenic or Paris green, 1 pound,
Lenoms or oranges, 6 fruits
Low grade cane or sorghum molasses, 2 quarts,
Water, 2 gallons.

Mix the brand and poison thoroughly while dry. Dilute the molasses with the amount of water as named. Squeeze the lemon juice into this diluted molasses, then grind the rind of the lemons with a meat chopper and add this also to the liquid. Now mix the liquid thoroughly with the poison brand mixture. After an even mixture has been obtained, add more water and mix until a mash is obtained, so that after being squeezed in the hand, it readily falls apart.

Grasshoppers feed in the morning, and as the bait loses its attractiveness when dry, it should be applied so as to be as moist as possible at this time. It will therefore be best to put it out about sunrise. Provided the ground is not so hot and dry as to remove the moisture during the night, it may be put out late in the evening in case the area to be treated is too extensive to be quickly covered in early morning. The mixture should be scattered, as if sowing seed, by hand, or by any trype of seeder capable of distributing it. The amount given in the formula should cover about five acres.

Where the hoppers have become distributed over the cultivated field, the entire area should be sown, and the application repeated in a few days if necessary. If the hoppers are found to be advancing from pasture lands, distribute the mash in front of their line of march for a distance of a couple of hundred yards, keeping also the margin of the pasture land treated daily until the danger of damage has passed.

The Nominee

(Continued from Page 1)

dent Harding, he took the oath of office from his father amid a setting as romantic and as fitted to the American tradition of simplicity and democracy as any recorded in the nation's history. He stood up in the vague light of kerosene lamp, in the parlor of a Vermont farm house, far from any suggestion of majesty or pomp, close to the eternal hills, and there accepted the responsibilties which thus had come upon him out of the night.

It was on a farm in the same state that he was born, amid the patriotic manifestations of July 4, 1872. He came of Puritan stock, and his youth was no stranger to hard work and to the homely training of the region and period. He got out of the primary school and was sent to the Block River and St. Johnsbury academies, as preparations for Amherst.

His classmates at Amherst couldn't quite make Coolidge out. He had by this time developed Yankee reticence to a fine art, so that, though he was not regarded as unfriendly or a "grouch," he was not among the popular boys in the college. But he was liked. The fellows couldn't seem to get close to him, that was all. He has always trod a lonely path, judged by other people's standards, but there are evidences that he never felt lonely.

After his graduation, Coolidge was admitted to the bar, and with characteristic particicality, while practicing his profession, he devoted himself at once to the feld in which his inborn faith told him his destiny lay—politics. He started at the bottom of the ladder, and from that time on he moved up, step by step, to the amazement of politicians and laymen alike, who never have understood the secret of his success. Perhaps they do not properly estimate the power of faith.

Elected Governor.

Minor offices in Northampton, Mass. were followed by election to the Massachusetts House. Then he was twice mayor of Northampton, and after that presiding officer of the state senate. In 1915 he became lieutenant-governor of the state, and in 1918 governor.

The Boston police strike brought him into national prominence. There has always been some dispute about Coolidge's part in putting it down, but what ever the facts about that, it made Coolidge's name known and opened the way for his nomination as vice-president.

Outwardly there is little change in Coolidge since he became President. He seems not to have taken on or lost a pound of weight. His habits have undergone no change. He has adopted no new practices, political or personal, despite his changed circumstances. Just as he clung to his faith in his early years, so today he clings to the ways of his youth.

Washington subjected him to a cold and somewhat cynical examination, but he seemed unperturbed by it. His callers soon found that, when he thought the occasion called for it, he could display a sense of humor. He proved to be astonishingly well informed.

Mrs. Coolidge, who, as Grace Goodhue, a school teacher, was once warned by a White House guard not to touch the gold piano in one of the White House State apartments, fitted into Washington's official social life instantly. The two Coolidge boys, John and Calvin, Jr.—the President's only known hobbies—continued their attendance at Mercersburg Academy.

The Eleventh Scandinavian Temperance Congress will be held at Christiania August 6-10.

U. S. World Flier Forced To Land

SAN FRANCISCO, June 12.—Lieut. Lowell Smith, commander of the American round-the-world flight, was forced by engine trouble to land at the little coast town of Hue in French Indo-China yesterday, according to wireless advices received here today.

Smith was leading the flight down the coast from Haiphong to Turane when the trouble developed and he was forced to land.

Lieutenants Leigh Wade and Eric Nelson continued on their southward course and made perfect landings at Turane.

Anxiously they communicated with their commander and were advised that Smith and his mechanic were safe and that they were not in need of immediate assistance, but that the motor of the "flag ship" was damaged beyond repair.

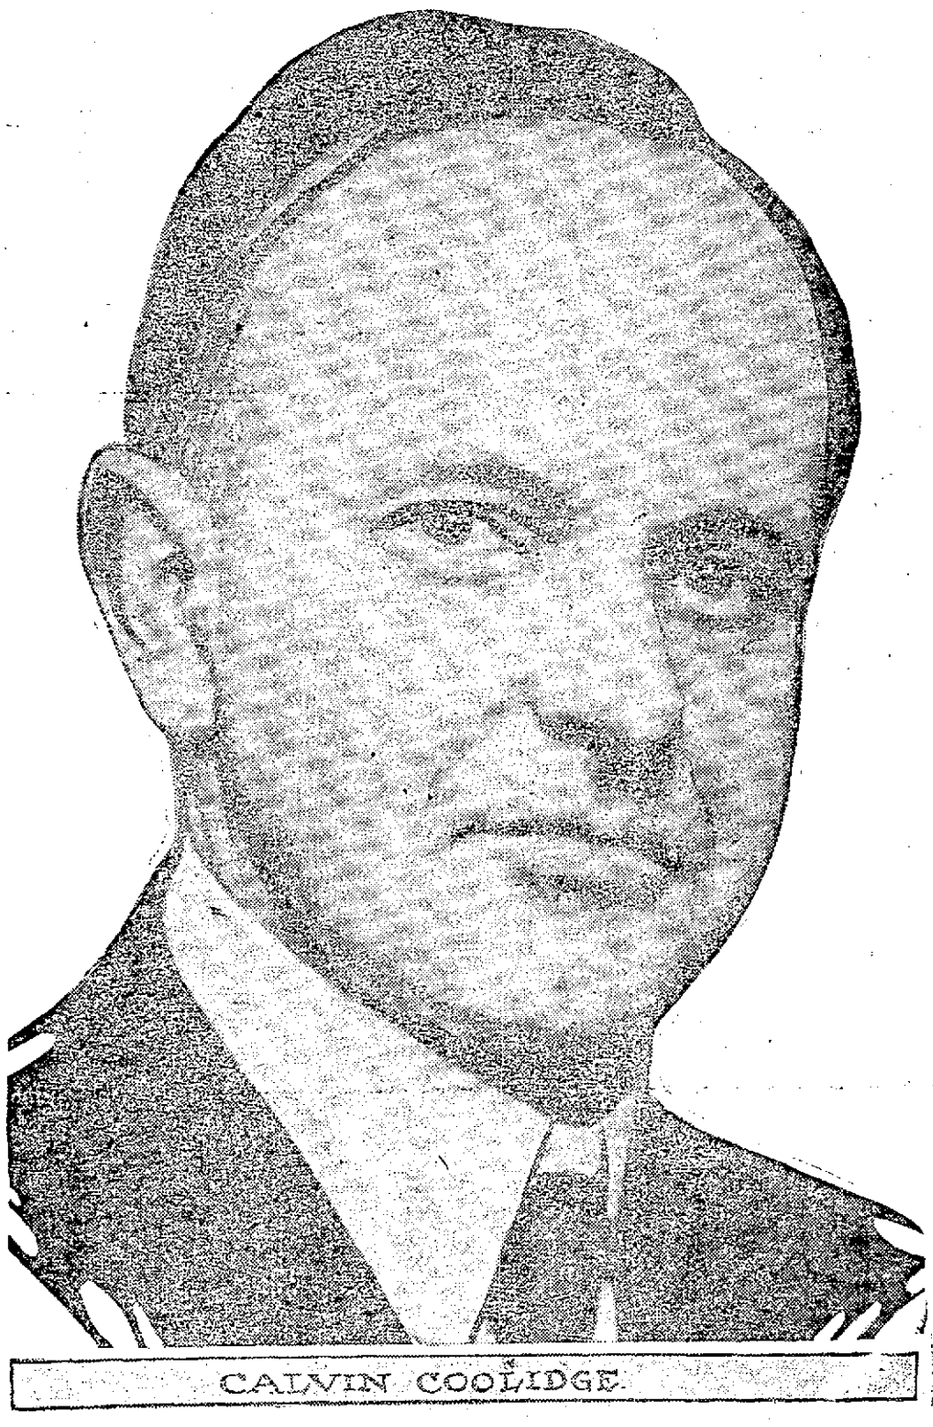
Republican Presidential Choice



CALVIN COOLIDGE

WISCONSIN CONGRESSMAN HISSED BY DELEGATES BUT APPLAUDED AND CHEERED BY CONVENTION VISITORS

By PAUL R. MALLON
(United Press Staff Correspondent)

CLEVELAND, Ohio, June 12.—A platform, following completely the desires of President Coolidge stands adopted by the Republican convention, which will name the President as the party's standard bearer today.

After hours of wrangling within the resolutions committee the platform was finally presented and adopted at last night's session. A mighty shout of "Ayes" greeted the question for adoption. A defiant shout of "No" came in answer from the Wisconsin delegation.

And back of this defiant shout was the drama of the present ticket being present to the country at the progressive meeting here July 4, and headed by Senator LaFollette.

The spirit if this movement which gripped the huge convention hall last night was perfectly typified by an erect silver haired and grey bearded man who stood in the flood lights before the thousands of men and women and presented a cause that he knew was doomed to defeat. He was congressman Henry Alen Cooper of Wisconsin. There was on bitterness in his mein or utterances as he faced the convention delegates who at times hissed and booed him. His was a spirit of tolerance, of saim confidende.

"Socialism" they shouted at the aged Congressman as he read the Wisconsin platform, which he presented as a minority report to the convention.

"Yes, they called it socialism when Wisconsin first advocated the direct election of senators by the people," Cooper calmly replied.

"Socialism" they shouted again.

"Yes they called it Socialism when Wisconsin returned her first minority report in 1908," the dignified solon responded again, "but every plank but one in that first protest is now the law of the land."

Whether they agreed with his principles or not the galleries liked Representative Cooper. They cheered him. Former Congressman Campbell of Kansas, parliamentarian of the convention stepped out on the runway two or three times, touched him on the arm and asked him not to step away from the amplifiers. The crowd thought Campbell was "calling time" on the aged speaker. Shouts of "Let him alone," " Gon on," and hisses for Campbell swept down from the rows of seats that stand tier on tier in the great hall.

Campbell sought to let the crowd know by pantomine that he was not interfering with Cooper, but merely guiding him that his unseen audience of thousands of others might hear.

Prior to Cooper's reading of the Wisconsin platform, the convention had its demonstration during the reading of the administration platform which was adopted. The demonstration lasted about fifteen minutes and followed the first mention of the name of President Coolidge by Chairman Warren of the resolutions committee. The band played, the organ boomed, state standards were pulled pu and men and women joined in shouting and cheering as flood lights swept the hall. The Wisconsin delegation had no part in this demonstration. Every delegate sat silent in his seat. Other delegates swarmed about the Wisconsin representatives. Governor Blaine grasped the standard firmly and held it in place to prevent anyone from tearing it away and joining in the parade. Singing started. For one part of the gallery came: 'Hail, hail, the gang's all here," "all except Wisconsin."

Republicans Are Not Running For Vice Presidency

CLEVELAND, June 12.—Three of the most prominent Republicans in the country have now had the vice presidential nomination served up to them on a platter, and have sent the platter back.

Frank O. Lowden, former Governor of Illinois, was the first to have the vice presidential dish set before him. He refused it.

Herbert Hoover was next tried. He also declined.

Then it fairly hurled at the head of Senator Borah with positive statements from administration sources that Borah would accept it. Borah dodged.

LA FOLLETTE AND JOHNSON GET FEW VOTES WHEN VOTE ON PRESIDENTIAL CANDIDATE

CLEVELAND, June 12.—Amid tumultuous cheering Coolidge was nominated almost unanimously.

Johnson received ten South Dakota votes.

LaFollette received six North Dakota votes and twenty eight Wisconsin.

After nominating Coolidge a recess was taken until 3:30 when the candidate for vice-president will be chosen. Last minute conference of Coolidge leaders understood to have decided on Judge Kenyon of Iowa instead of Curtis of Kansas. Senator Smoot of Utah said Kenyon's nomination is virtually certain.

The situation is in a turmoil.

WASHINGTON, June 12.—(United Press.)—The wire in the White House telegraph room today clicked off a message for Calvin Coolidge, saying, in its cool, impersonal way, words to this effect:

"You have been nominated."

Behind that message lies the romance of the poor boy who came at last to the greatest eminence his nation knows. With those words opened a vista through which he could see ahead the goal of a full term of that high place— a term in his own right. Between him and that lie the obstacles of the campaign, but in great moments men do not see obstacles, but only goals.

The Calvin Coolidge who today got that massage is an older, somewhat wearier man than he who was called by the sudden turn of destiny to occupy the White House in August, 1923 He has had, between then and now, the burden of the presidency upon his shoulders and his heart, and the thrill that today's message brought must have been tempered somewhat by knowledge. The President knows that he faces a fight for election and that, if he is elected, his pathway will be a hard one.

Four years ago, in Chicago, "Jimmy" Reynolds had Calvin Coolidge's presidential boom in his pocket. Reynolds didn't tell it abroad at first, but that boom was really a vice-presidential boom, and with consummate skill he worked things so that Coolidge was the vice-presidential nominee.

In March, 1921, Mr. Coolidge took his oath as president of the senate and assumed the not too arduous but rather deadening duties of that office. He succeeded the effervescent Tom Marshall, whose sense of humor was so active that not even senate routine could dull it.

But Mr. Coolidge seemed not to mind the dragging hours of senate debate, or the more or less purposeless parliamentary bickerings. He applied himself from the beginning to mastering the intricacies of senate rules, and so well succeeded that he was voted a fair and intelligent presiding officer. Too, he afforded occasional glimpses to some of the senators of a Coolidge they did not suspect—one with a sense of humor and a chatty humanness. He came to be well liked, and was always respected, though he was not, as Marshall had been, a "chummy" vice-president.

Called to Presidency.

When, in the early morning of Aug. 2, 1923, Mr. Coolidge was notified of the death in San Francisco of Presi-

REPUBLICAN LEADERS URGE BORAH AS RUNNING MATE FOR COOLIDGE BUT WHEAT BELT DON'T LIKE IT

(United Press Staff Correspondent)

MUNICIPAL AUDITORIUM, CLEVELAND, Ohio, June 12.—

Robert J. Bender.

"Coolidge and Borah" was the assured Republican ticket for a brief spell early today—but, as the National convention swung into its concluding deliberations, the ticket began to look more like "Coolidge and ....." At one of those early in the morning in an out of the way room conference, which have become an institution in the history of Presidential nominations, Borah was selected at 1:30 this morning by Coolidge leaders to receive the vice presidential nomination. It was all carefully arranged. The plan had received the OK of Wm. M. Butler, of Frank B. Stearns, Secretary Weeks, in whose room the deciding conference was held, Chas, D. Hillis, Senators Pepper and Reed of Pennsylvania, Secretary Mellon, Senator Wadsworth and others. The situation, it was said had been thoroughly canvassed and Borah undoubtedly was the man needed. Furthermore, it was pointedly explained, no man would be thus suggested by such a notable gathering of party managers unless they knew he would accept.

Everyone was surprised and some of the delegates, particularly those from the 13 Wheat States which had organized a bloc with the idea of selecting one of their Middle Western number to run with Coolidge, were angry.

These latter, after holding a meeting at which they voted former Senator Kenyon as their first choice and Senator Curtis as their second choice sent a committee down to advise the Weeks conference of their attitude. Before they could report to that conference, however, Weeks had "Reported out" Borah as the choice of the Coolidge managers.

The Wheat-state bloc committee then plodded back to their conference, took three ballots on the question of supporting Borah, declined to approve the selection—and went to bed around 3 a. m.

This morning they woke up all wary and bright again. It seemed that sometime during the lapse of time between 1:30 and 3:00 a. m. Borah hearing of the action taken at the Weeks conference had rushed thru telephone and telegraph messages to the leaders here reiterating previously tendered declinations of the second place position.

"Absolutely, positively and unalterably no," said Mr. Borah—thereby joining the refrain previously started by Frank O. Lowden, joined in by Secretary of Commerce Hoover no later than yesterday and now swelled to added volume by Mr. Borah.

So, the final session of the Republican National convention, which before dawn today, appeared likely to end in jig time approved of a ticket signed to satisfy East and West alike, opened its doors with vast uncertainty about the personnel of its ticket.

Now it appears to be anyone's race again—with Senator Curtis of Kansas, Judge Kenyon of Iowa and Albert Beveridge, of Indiana, once more occupying centers of the conjectural stage. As one administration leader remarked when he found his own vice presidential candidacy had been overlooked entirely in the Weeks conference, "These certainly be strange days—and even odder nights."

A record crowd was moving early toward the convention hall for the final deliberations of the G. O. P. and selection of its campaign ticket.

NEW FROCKS FOR OLD AND HOW IT IS DONE

By Hedda Hoyt
(Written for the United Press)

NEW YORK, June 12—United Press—To have a frock for every occasion is quite an essential thing these days. One needs morning frocks, afternoon frocks, beach frocks, tea frocks and frocks for various other occasions. The women who is content to make one frock do for all occasions is no longer seen in the cities where ready-made garments sell so cheaply.

The women of limited means often find the task of being appropriately gowned for all occasions a difficult one. Therefore, it is the women who are clever at remodeling last year's gowns who always appear well dressed in spite of a meagre pocketbook. Making over clothes is an art in itself. It is more difficult to remodel and old gown than to make a new one.

There are many ways, however, to remodel last year's frocks so that they will bear the earmarks of 1924. We will take the typical frock of last spring and summer, for instance. These frocks had the low bloused waistline made on an elastic band, as we all know, the elastic waistband is no longer used on the smarter gowns of this season since most gowns are devoid of waistline, being straight-line models. By removing the elastic band from an old frock and reducing the width of the skirt by taking in the width seams, one has the invariable silhouette of today.

If the straight chemise effect is too severe, a bow of self material or chiffon can be attached at one side of the gown, giving the side trimming effect which is in vogue. Those who prefer a semblance of waistline may use a band of ribbon or self material to form a narrow girdle effect. Often we find that the ready made frock has been pieced together at the elastic waistline. In this case one may insert a narrowband of beading or embroidery at the waistline. Where fullness is used in the skirt, it must be confined over the hips as the front and back of all frocks are flat this year.

The panel frock of last year is also passe, but taking off panels is a very simple matter and the material used in the panels may be utilized elsewhere on the frock. If the panels are sufficiently wide they may be added to the back of the frock to give the waistlenght cape effect. Narrow panels may be joined together with ecru lace to insure width for the capelet. Again, one may sew the panel material together and have it pleated to produce a cape. There is another way panels may be used to trim a frock. By using them in band form about the skirt just below the knees, one has the new bottom-trim effect. Many of the latest frocks have flaring flounces at the bottom of the skirt. A straight line frock can have a flounce of contrasting material added below the knees to give the flounce effect. In fact, many of the new figured silk gowns have wide flounces of taffeta in solid color finishing the bottom of the skirt.

The black frock can be vastly altered by applying several layers of crepe de chine of contrasting colors at the hem. By simply stitching three narrow widths of contrasting colors together and adding them to the hem, one has a 1924 frock.

Then, as to the evening frock! There are so many ways of giving the jaded evening frock a new lease of life! By using ostrich or marabou banding about the hem, on scarf ends, etc., one has one of the latest frocks. Then again, the frock of last season may be remodeled by simply using row after row of dyed lace or ruffles upon the skirt. Fluffy, ruffled frocks are very much in vogue for slender figures and almost any frock can be turned into this class. Even by using a layer of pleated chiffon on the skirt, one has a new garment.

Gowns of the tailored type can be remodeled by using the front trimming effects which are so popular today. This is achieved by means of an embroidered band which extends from neckline to hem. On either side of the narrow embroidery band are tiny ruffles of shirred lace. One may also use the bottom trimming down the front of the semi-tailored frock. In this case a row of crystal or pearl buttons extends from neck to hem with a narrow lace or net edging at either side of the buttons, running the length of the frock. The Eaton collar and bow tie usually accompany a dress of this sort.

JOHNNY HINES GIVES SECRET OF SUCCESS

That the gods bestowed fortune—another name for popularity—on whomever they will, has been believed from time immemorial. It has remained for a screen comedian, Johnny Hines, to give the lie to the tradition by proving that it can be fought and worked for.

A few years ago he was unknown; today he is rapidly forging to the forefront among our comedians. He set out with an ideal—to put the true spirit of the American youth into pictures. His success, as shown in his latest photoplay, "Conductor 1492," is sufficiently proven, and his popularity is a thing now taken for granted.

Hines is thoroughly American. His characters never fail to register strength of will and determination to reach their goal, no matter what the cost. To quote Johnny himself:

"Put the American spirit into pictures. Let's have action, mirth, gameness, determination and plenty of will power, virile manliness in defense of right, and gentle courtesy to women.

"Never say die! I don't give a hang for a man who apoligizes and yields to any situation. Where there's life there is hope, and the real American doesn't take 'no' for an answer when he is sure 'yes' is what he should get."

When asked what above all is necessary to carry his work across effectively, Hines says:

"Conditions is the greatest asset of the moving picture actor. If you want to give good comedy, in a true natural manner, the actor must be in the best of health and spirits To be that, his body must function properly, his brain must be clear and keen and his surroundings must be such as to invite harmony. In other words, one has to be in the pink of condition.

"To keep in good health is to keep busy. Keep the mind occupied in helpful occupation. Have your work so mapped out that it will call for plenty of good exercise. Try to make everybody happy and contented. The gym is a good place for everybody to go.

Apicture actor must be primed for his work, or the public will realize it. Play only in those comedies that call for penty of exercise, and where one has to play his part like a champion."

In speaking of his roles, he tells you that unless he has something to do that calls for plenty of action he knows what a failure he will be. When he started to play his parts in the "Torchy" comedies, in one comedy known as "Battling Torchy," he had to take the part of a skilled pugilist.

"Conductor 1492" is scheduled to show at the National Theatre today, Friday and Saturday.

FARMERS WORK WITH A RUSH IN FIELDS

Fair weather is encouraging the farmers of this section to keep in their fields and to "make hay while the sun shines," however, in this instance it is corn and cotton largely. Corn is growing rapidly and home raised "corn on the cob" will soon be a popular dish on Mexia tables. Weeds are also growing fast and from early until late, just like in the good old days, farmers and their families by the hundreds are working in the fields.

CARELESSNESS.

No need to worry about darkness in your home! One lamp will give light if anther doesn't. But the lamp that makes it possible for you to see your way about this world, once burned out, cannot be replaced.

Carelessness oftentimes is excusable. In the case of your vision, it is not. Perfect eyesight is open to all.

WOODMAN CIRCLE

Says His Prescription Has Wonderful Influence over Rheumatism

Mr. James H. Allen of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenrhu, to others who took it with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allenrhu with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment. Anderson & Horn can supply you.—(Adv.)

Simple Home Treatment For Swollen Veins

If you or any relative or friend is worried because of varicose veins or bunches, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing.

Ask your druggist for an original two-ounce bottle of Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. Emerald Oil is a powerful, yet harmless germicide and results are guaranteed.—(Adv.)

Mexia Autoists Urged To Drive More Carefully

Hardly a day passes in Mexia but that there is an automobile accident. Some days, there are many accidents and injuries. Cutting corners sharply is a practice responsible for more mishaps in cars than any other perhaps unless it be insane speeding and cutting corners is a form of speeding.

A good rule for the motorist is never to start to turn around or swing sharply to the right or left without knowing there is no car coming up back of you or no pedestrain in danger. If parked at a curb, don't back until you have looked back. Never take your eye off the road. You must allow the friends riding with you to enjoy the scenery. The driver has a really full time job on his hands. If you don't think it necessary to exercise more than ordinary caution, ask some Mexia man or woman who has been in an auto accident.

No duty in life is half so urgent as that of conserving human life.

$1100 Postoffice Goes A Begging

BRECKENRIDGE, Texas, June 12.—When the day came for civil service examinations to select a post-master for the Ivan postoffice at a salary of $1100 a year there were no applicants.

For a time it looked as if the job would go begging, but L. D. Kennedy, former postmaster who had resigned, reconsidered his resignation and again took up the work of looking after the Ivan post office.

Betcha She Is Not A Flapper

DALLAS, Texas, June 12.—The school record of Miss Eva Williamson, member of the graduating class of Forest Avenue high school here, is one for other students to shoot at.

From the time she started school she has missed only one day and a half from her classes and has never been trady.

In addition to that, she hasn't missed Sunday school in nine years and has been late only twice.

SCHOLARSHIP PINS GIVEN TO TEN BEST STUDENTS OF H. S.

Prior to the departure for the Summer to the University of Chicago, Principal R. M. Andrews of the Mexia High School, announced that the Scholarship Pins had arrived for the ten students in the high school who made the highest grades in the school work. He states that the pins were especially made for the students and are treasures of striking beauty. They are of 14 k gold, on the top is the word "Mexia" and on the bottom is the year "1924" with the letters "H. S." which stand for high score or high school. Also engraven on the pin is "Liberty Holding Aloft the Torch."

The students winning these prizes were from all the classes of the school Miss Josie Wright was the Senior to get one of the pins. The highest grades were made by Joy Adams and Pauline Stephens of the Freshman Class. The others are: Lola Cochran, Opal Hale, Marianna Murphy, Elizabeth Jones, Mary Porter Travis, Frances Vickers and Benjamin Davis. They all made grades above 90.

Rough Dry

TEN YEARS AGO THEY SAID SHE COULDN'T LIVE!

BUT MRS. GREER TURNED TO TANLAC AND GOT IMMEDIATE RELIEF.

"After I had suffered for ten years all the tortures stomach trouble and rheumatism can cause a person, my husband did the least expensive and yet the most wonderful thing in all his efforts to save my life when he bought me Tanlac," recently said Mrs. N. M. Greer, 20 West Cole St., McKinney, Texas, in a vivid and impressive account of her experiences with the famous medicine.

"As long as ten years ago, I was told I couldn't live and at times since then I have been so low that everyone thought I was gone. I could not eat anything but malted milk and butter-milk and I had starved until I was nothing but a shadow, only weighing 90 lbs. Besides that, I had rheumatism so bad that for three years I sat in my chair unable to get up, and I could not lie down for smothering spells. I could hardly bend my back, my arms were so stiff I wasn't even able to lift a cup to my mouth, and my legs were terribly swollen and utterly useless.

"My husband spent thousands of dollars trying to save me and I suffered so I prayed to die, but when Tanlac began helping me, I was one of the happiest women in Texas. In a short time, I was eating heartily and after I had taken seven bottles, I hadn't a sign of stomach trouble or rheumatism; I was walking about as well as anyone, doing all my housework, and my weight had gone from 90 lbs. to 140 lbs.—a gain of 50 lbs. It has been three years since then and I have now passed my 65th birthday but I am still feeling fine. All my friends know that what I have said is true and I want the whole world to know that Tanlac saved my life."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills are made and recommended by the manufacturers of TANLAC.—(Adv.)

They Will Run Without Gas

EL PASO, June 12.—When Leland Hart returned to where he had parked his auto and found it gone, he immediately notified the police.

At midnight the long arm of the law found his car, head-on against a front porch of a house.

Hart had parked his car at the top of a hill. It had started on a tour of its own and finally nestled against the porch. The occupants of the house heard the thud, but thought it was just an explosion nearby.

"For Mexia, I WILL"

THOUGHT FOR THE DAY.

There is an honor in business that is the fine gold of it; that reckons with every man justly; that loves light; that regards kindness and fairness more highly than goods or prices or profits. It becomes a man more than his furnishings or his house. It speaks for him in the heart of everyone. His friendships are serene and secure. His strength is like a young tree by a river.—Anonymous.

DENGUE FEVER AND MAD DOGS

Those interested in public health in Texas are warning Texans to fight flies in order to avoid another Dengue fever epidemic. Those interested in human welfare first and all the time are urging that all dogs be vaccinated against going mad. It is claimed that there are more mad dogs in Texas today than known before. Pasteur Institute at Austin is crowded with their victims. Both of these possible menaces, now known, may be averted by common sense practices.

The other day, Dr. R. E. Cromean killed a dog that was suffering from rabies. The animal was near the Majestic hotel and began to snap and bite and show evidences of a real case of rabies. The doctor didn't try to inject a vaccine into the canine but did apply a rock with deathly force to his head. He simply used the munition used by David in a battle with Goliath but had to throw more than once to hit his mark. All dogs should be watched carefully and if their symptoms warrant fear the precaution of putting them out of the way of helpless women and children should be applied.

As to the flies, there are many traps here as elsewhere that afford places of interest to flies and where they accumulate, multiply and are magnified.

Poorly kept premises, unkept vacant lots, water puddles, trash, unsanitary alleys, all are breeding places for these millions of pests which fly away with the health of people.

Old tire casings, looked upon generally as an innocent looking thing, are menaces. They often fill with water and raise mosquitoes.

The recent rains have done more than fill tire casings. They have provided mosquito hatcheries in tubs, barrels, tin cans, roof gutters and flower jars. The precautions are simple. Empty out all the water that is not absolutely necessary. Put kerosene or other oil on water that must be saved, or cover the container so tightly that no mosquitos can lay eggs upon the water. The watering trough or tub of the family cow is a real danger. It should be completely emptied and cleaned every few days.

The appearance of Dengue in the state warrants the beginning now of an effort to keep it out of Mexia. The best way to keep Dengue out is to keep the fly out that brings it here. Cooperation with the City Sanitary Department in this respect means the saving of many dollars to Mexia citizens and what is more valuable still, the lives of our dear ones.

The Old Gray Mare Band is getting deeper and deeper into politics. Texans who saw the poise of the Old Gray Mare herself at Waco recently, when the Democratic State Convention was held there, are now anxious that there be some good old fashioned horse sense shown at the event soon to be held in Medison Square Garden and so are raising a fund to carry the band and the animal to the convention center.

Peaches, home grown and luscious, are now reaching local markets. Some of the finest yet seen here were brought in this week by Mrs. J. W. Stubenrauch. They were up to the usual high Stubenrauch standard. There's nothing finer than a good peach unless it is another peach or a big Texas watermelon.

"Prohibition has done more for thrift than all the Poor Richard almanacs ever printed and more for 'better, safer work' than all the 'safety first' propaganda; it is the first and only 'all wool' thinner out of jails, poor houses and asylums."—The Index, Williamsport, Penn.

The payroll of the cotton mills in Gastonia, North Carolina's textile center, totaled nearly $10,000,000 in 1923. Mexia's cotton mill will soon be going up. Other mills will follow. Mexia will grow as the payroll increases.

THE EDITORIAL OF THE DAY

THE MELLON STANDARDS.

(Congressman Frear, Wisconsin.)

Does any man believe that following a legislative gift of $500,000,000 by repeal of the excess-profit tax for big business in 1922 Lincoln would have favored giving a further tax reduction of 50 per cent to men of great wealth and only 25 per cent to those least able to pay, as proposed by the Mellon plan, with a threat from big campaign contributors not to play or pay unless given special financial privileges? Among these campaign contributors $1,000,000,0000 of admitted error by Secretary Mellon in revenue estimates becomes a tribute to his scientific accuracy when instructing congress on taxation, while to them four-fifths of the house are politicians, and Mellon of anti-soldier tendencies is the genuine patriot when a soldier's relief is before congress, whether it be a Bursum bill or a soldier's bonus measure. Congress has repudiated the Mellon's standards on taxation and soldiers' relief.

Loyalty to those who are loyal will work reciprocal prosperity.

WITHOUT COMMENT

After a careful study of the provisions of the bonus bill as passed by Congress over the President's veto, we are able to offer veterans of the World War, without charge, the following advice as to the best method to figure out how much they'll get: Take your army serial number and divide it by the square root of 965. Add to that five times the age of Andrew Jackson when he first had the mumps, subtract 16 and multiply by the difference between the ages of Zev and Methuselah. Then divide by the number of grains of wheat in .754 of a bushel of oats and multiply by the number of mosquito bites a man six feet tall and weighing 178 pounds can get in four hours and fifteen minutes on the Ninnesach River on August 15, 1924. Subtract the value of a German mark, if two plus forty-eight equals seven. If not, add ten times the amount you cheated the government out of on your 1923 income tax return. Then throw the entire calculation away and pray.

CONVENTION SIDELIGHTS

CLEVELAND, June 10.—(United Press.)—Many distinguished folk are here for the convention. Most of the members of the cabinet who could get away, and the big Republican figures in congress are on the ground.

Mrs. Florence Harding, widow of the late President; Mrs. Alice Roosevelt Longworth, and the wives of senators are among box-holders. Some of the latest things in summer finery will be shown at social events planned by Cleveland hostesses for the convention period.

The main problem of the convention leaders is to keep it here long enough to let Cleveland hotel keepers and business men come out even by getting back the money they put up to insure the convention for the city. Unless some totally unexpected problem arises, leaders do not see how they can keep the convention beyond Thursday night, but they will try to hold it over Friday.

C. Bascom Slemp, President Coolidge's secretary, and William M. Butler, his campaign manager, and the incoming chairman of the national committee, are the handshakers-in-chiefs at the Coolidge headquarters. The President will be kept fully informed of what goes on.

The more you help home interests the better Mexia will get.

May Wettest Month Of May In 6 Years

GROESBEC, Texas, June 12.—The monthly summary from the local weather station by H. P. Adams, Meteorologist, shows the May just past to have been the wettest May since the establishment of the local aerological station six years ago. There was a total rainfall of 7.29 inches during the month against 0:46 inches during the same month in 1923. May of 1923 showed the smallest rainfall during the six year period. There were twelve sunny days and nineteen that were cloudy at least part of the time, and rain fell during ten of these days. There was hail on two days and thunderstorms on eight. Highest relative humidity was 99% on the 3, 7, 26 and 29th and the lowest was 28% on the 15th.

NOTICE TO ALL CORPORATIONS IN THE FIRST DISTRICT OF TEX.

Forms 707 and 708 for filing Capital Stock Tax Returns with Collector of Internal Revenue, Austin, Texas, covering the period July 1, 1924, to June 30, 1925, under Section 700 of the Revenue Act of 1924, have been revised and it is anticipated that by July 1, 1924, they will be ready for delivery to all corporations.

On account of the unavoidable delay in getting the revised forms ready for distribution in sufficient time to enable corporations to file the Capital Stock Returns during the month of July, the time for filing is extended to September 30, 1924.

It will be noted, therefore, that no penalties will be incurred where a corporation files its Capital Stock Tax Return for the fiscal year ending June 30, 1925, provided the return reaches the Collector's Office at any time on or prior to September 30, 1924.—James W. Bass, Collector.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshiness or unpleasantness and will absolutely relieve indigestion, billiousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by Bennetts Drug Store.

Public School Work Planned by Masons

(Masonic News Bureau)

DALLAS, Texas, June 12.—What will be termed "Public School Week" in the Masonic Lodges of Texas will be observed from June 23-28. A special Masonic Service and Educational Bulletin on the subject of "The Part Masonry Had in Founding the Free School System of Texas."

This Bulletin will show a large number of Masonic free schools in operation in Texas before 1860. In some localities Masons not only defrayed the expenses of the schools, but often the Master of the lodge taught the school.

In addition to bringing up the facts concerning the early history of the free school system of Texas, the Bulletin will contain other valuable information concerning the public free school system of today and what Masons can do to improve it. Every Masonic lodge in the State has been requested to put on this program or co-operate with its nearest neighbor in so doing.

Mrs. Roy Sparks and daughter, Marguerite, of San Benito, California, are visiting in the home of Mr. and Mrs. Fred Klotz.

FOLKS DON'T THINK BLOTCHES ARE PRETTY

You can't expect people to say you are "good-looking" as long as your appearance shows you are careless about blotches, pimples, rash "breaking out" and eczema.

You may feel like you have no hope of getting rid of those things, but you should not give up because Black and White Ointment, and Soap, are proving to thousands of people every day that they can depend on them to keep their skin clear, smooth and lovely.

Black and White Ointment and Soap are nominally priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap.—(Adv.)

Hirsh Says Greb Lag 1st; Bracadale 2nd

By FRANK GETTY
(United Press Staff Correspondent)

NEW YORK, June 12.—Maxey Hirsh, veteran trainer who has handled some of the best horses this country has produced, agrees with Sam Hildreth that Grey Lag is the fastest stake horse on the American turf.

When the question of which horse should be selected to meet Epinard, the French crack, in match races this fall was put up to Hirsh, he had no hesitation in replying:

"Grey Lag, of course. If he is fit, he is the best we have."

Sam Hildreth is handling the Sinclair colt, now 6 years old, and Hirsh says he understands Grey Lag is being "pointed" for just some such event as the Epinard matches—if these are held.

Some time ago, before the running of the Withers at Belmont Park, Hirsh was asked what colt he thought to be in the best shape for a stake race. Without considering any of the other contenders, the trainer named Bracadale.

As everyone knows, the Rancocas colt stepped on Decoration Day and ran away from the field in the Withers. Which showed that Hirsh was a prety fair judge of contempoary horseflesh, if there had ever been any doubt on that score.

Bracadale disappointed earlier in the season, but his running in the Withers left nothing to be desired.

On the form shown at that time, Bracadale was Hirsh's choice to meet Epinard if Grey Lak had to be passed up.

A second choice named by the trainer was Nellie Morse, Bud Fisher's good filly. Nellie Morse's running in the Preakness at Baltimore was something turf followers will long remember. The Fisher filly splashed home to victory over a field of highclass colts.

Shortly after Hirsh had suggested Nellie Morse as a possible American contender in an international stake race, she disappointed in the Kentucky Oaks on get-away day at Churchhill Downs, when, after leading the field all the way, she allowed herself to be nipped on the post by an outsider. However, there was more in this race than met the eye.

It would be unusual if a filly wore the silks of the United States against the pride of France, but with this year's colt running as erratically as at present, Hirsh's choice is not as unusual as it might seem.

There is no doubt but 1924 is an off year for high-class horseflesh in all three countries where racing prevails—England, France and America.

Miss Sybil Bauer, Illnois Athletic Club woman swimming star of Chicago, who will represent America on the woman's swimming team at the Olympics, broke her own world's record in final trials for the 100-meter back-stroke swim by going the distance in 1 minute and 22 3-5 seconds, which was 3 3-5 seconds quicker.

Lemon Must Be A Big Cheese

DALLAS, Texas, June 12.—When W. C. Lemon, vice president of the board of education, paid a visit to an elementary school in company with J. F. Peeler, district superintendent, Peeler asked the class if they recogniz ed the gentleman with him.

After a few minutes, one small boy timidly raised his hand.

"Do your know who this is? Asked the superintendent.

"No sir, but I know who he looks like."

"Who?" asked Peeler.

"Fatty Arbuckle."

HARD HITTING OUTFIELDER REPORTED BOUGHT BY MEXIA

The Greenville Morning Herald of recent date carried the picture and the following report of the sale of Ned Seely to the Mexia Baseball club:

"Ned Seeley has been sold to the Mexia Club of the Texas Association and will join that club at Austin within the next few days, it was reported from baseball headquarters last night."

Mr. and Mrs. Fred Klotz have returned from Houston where they attended the Commencement exercises of Rice Institute. Their son, Henry Klotz, completed his course of study there and received his degree with the class of around 100. NOTICE OF CHARTER ELECTION

An ordinance ordering an election in the City of Mexia, Texas, to be held on the 7th day of July, 1924, for the purpose of submitting to the qualified voters of the City of Mexia, Texas, for the adoption or rejection of the proposed charter, prepared and framed by the Charter Commission heretofore elected, and designating the places at which said election is to be held, and appointing presiding officers thereof and declaring an emergency.

WHEREAS, on the 11th day of February, 1924, the City Commission of the City of Mexia, Texas, duly enacted an ordinance, submitting to the qualified voters of said City, at an election ordered and held for the purpose, on the 18th day of March, 1924, the question: "SHALL A COMMISSION BE CHOSEN TO FRAME A CHARTER"? and also providing for an election of fifteen members of a charter commission in case a majority of the votes cast at such election should be in favor of the choosing of such a commission, and which ordinance was duly approved and published and notices of such election were duly given as required by law; and

WHEREAS, said question was duly submitted and voted upon at said election in said city on said date, and the majority of the qualified voters voting at such election voted in favor of the choosing of a commission to frame a charter, and also a majority of the qualified voters voting at said election, voted in favor of fifteen citizens of said city to compose said Charter Commission; and

WHEREAS, said election was duly and legally held on the said 18th day of March, 1924, and results of said election was duly certified and returned to the City Commission by the proper election officers; and

WHEREAS, on the 21st day of March, 1924, this commission considered the several returns and canvassed the same, and found that there were cast, at said election, six hundred twenty-seven (627) votes, of which number five hundred five (505) votes were cast for the choosing of a charter commission, and one hundred twenty-two (122) votes were cast against the choosing af a charter commission, and this commission thereupon, by resolution, duly entered, declared that the proposition so submitted was sustained and adopted by a majority vote of the qualified voters of said city, voting at said election; and

WHEREAS, the City Commission of the City of Mexia, Texas, has examined into and investigated the regularity of the proceedings for said election and finds that the same was duly and legally held, that the notice required by law to be given has been duly and legally given, and that said election was conducted in strict conformity with all the requirements of law; and

WHERAS, each and all of said fifteen citizens, so elected, duly qualified as members of said charter commission, and met and organized the same, and duly proceeded to frame a charter for the City of Mexia, Texas, and heretofore, on the 27th day of May, 1924, as such commission, signed such proposed charter and duly provided for the submission of the same to a vote of the qualified voters of said City, at an election to be held upon the question of the adoption or rejection of such charter upon the 7th day of July, 1924; and

WHEREAS, the said Charter Commisison provided that the present City Commission shall call an election for such purpose; and

WHEREAS, the said Charter Commission will ratify and confirm and make the enactment of this ordinance its act and deed, and will make such ordinance its order for such election, all of which will be evidenced by the signature of the members of said Charter Commission appended hereto under the words: "APPROVED BY CHARTER COMMISSION"; therefore,

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF MEXIA, TEXAS:

Section 1. That an election shall be held in the City of Mexia, Texas, on the 7th day of July, 1924, at which the following proposition shall be submitted:

"Shall the charter reported by the Charter Commission to the City Commission of the City of Mexia, Texas, on the 27th day of May, 1924, and which had been prepared by the Charter Commission duly elected by the qualified voters of the city of the 18th day of March, 1924, be adopted as the charter of the City of Mexia, Texas, as contemplated and authorized by the Constitution and laws of the State of Texas, including Chapter 147, Acts of 1913, Regular Session?"

Section 2. That the polling places and presiding officers of said election shall be, respectively as follows: the polling place shall be at the City Hall, in the City of Mexia, and W. B. Kendrick is hereby designated as presiding officer.

Section 3. That said election shall be held under the provisions of Chapter 147, Acts of 1913, Regular Session, and all persons qualified to vote in said City under the laws of this State regulating general elections shall be allowed to vote.

Section 4. That the manner of holding said election shall be governed by the general laws of the State of Texas, regulating general elections, when not in conflict with the provisions of the law hereinabove referred to.

Section 5. All voters desiring to adopt a charter so prepared and reported by the Charter Commission shall have printed on their ballot the following:

OFFICIAL BALLOT

"For the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924."

And those opposed shall have on their ballots the following:

"Against the adoption of the Charter prepared by the Charter Commission duly elected on the 18th day of March, 1924, and which was reported by said Charter Commission to the City Commission of the City of Mexia on the 27th day of May, 1924."

Section 6. That the action of the aforesaid Charter Commission in calling the election for the purpose hereinabove stated, and in all other respects with reference to the framing and submitting of such proposed charter, are hereby ratified and confirmed, and the said Charter Commission, or the members thereof, shall ratify and confirm all things done by the present City Commission of the City of Mexia, Texas, with respect to the matters and things dealt with in this ordinance, and shall make the same their act and deed by subscribing their respective names hereunto under the caption, "APPROVED BY CHARTER COMMISSION," and such names as so subscribed shall be published as a part of this ordinance.

Section 7. A copy of this ordinance shall be sufficient notice of said election, and thirty (30) days notice of the time and place of holding the said election shall be given by posting certified copies thereof at the places designated for holding said election at least thirty (30) days prior to the holding of said election, and by publication of such notice not less than thirty (30) full days from date of election.

Section 8. The fact that the City of Mexia is at the present time without a charter and that the public intrests require the adoption of a charter, creates an emergency and an imperative public necessity for the suspension of the rules requiring ordinances to be read upon more than one day and for the immediate taking effect of this ordinance, and such rules are hereby suspended, and it is ordained that this ordinance shall take effect immediately upon its passage and approval.

Passed and approved this the 27th day of May, 1924.

BORAH REFUSES TO SEEK POST AND FAVORS KENYON

WASHINGTON, June 12.—Senator Wm. E. Borah of Idaho, positively will not accept the Republican vice presidential nomination, he told the United Press early today.

Borah said he had instructed former Senator Beveridge at 3 a. m. to withdraw his name instantly should it be presented to the convention today.

"The reports from Cleveland that I had accepted a proffer of the vice presidency are absolutely without foundation," Borah said. "I have advised them out there that I positively will not accept it."

Asked whether he would spurn the position even if the convention should nominate him, Borah said:

"Yes, absolutely."

Explaining his request to Beveridge to withdraw his name from the convention if presented, Borah said Beveridge had called him up from Cleveland this morning to ask him if there was any truth in the report that he would accept the nomination.

Borah said he had previously telegraphed the Idoha delegation, Secretary of War Weeks, Senator Wadsworth of New York and C. Bascom Slemp the President's secretary that under no circumstances would he accept and when Beveridge called him up still inquiring, he asked him "As his friend" to go on the floor if necessary to prevent his nomination.

The Idaho Senator said he favored Judge Kenyon of Iowa for the vice presidency.

ADAPT THE CITY TO MOTOR VEHICLES

Those who planned our great cities where traffic problems are most perplexing today, knew nothing about automobiles and trucks. They thought terms of horse-drawn vehicles which are slow moving. Today street traffic is entirely changed and yet the same streets are being used. It follows then that one of the first things cities should plan to do is to widen streets, provide for motor vehicle arteries, confine certain streets to fast-moving motor cars—in a word, adapt the city to motor vehicles.

The small city which has not yet felt any need for traffic relief will wisely look into the future and prepare now for the day when cars will be used to a greater extent than they are today.

After all an automobile is simply an investment in transportation.

WOMAN ASKS BAN ON PAINTING HOUSES BLACK

HOUSTON.—Mrs. C. O. Shoberg has asked the city council to pass an ordinance prohibiting anyone in Houston from painting a house black. In her letter Mrs. Shoberg complains that one of her neighbors has painted his house a stove black hue, spreading gloom over the entire neighborhood.

WATCHING THE SCOREBOARD

By United Press

Yesterday's hero—Alexander, of the Cubs, chalked up his eighth straight victory out of nine starts for his team winning from the Dodgers 7 to 2.

Hugh McQuillan threw away his own game with a peg to where Groh wasn't, the Giants losing to the Pirates 4 to 2.

Hard hiting by the Senators drove Shocker, Brown's ace hurler from the mound Washington winning from St. Louis 12 to 1.

Heimach and Hasty were hit hard by the White Sox, and the Athletics lost 10 to 2.

Young Whitehill and old Ty Cobb proved too much for the Yanks, Detroit winning the opener 7 to 2.

The Red Sox lost 5 to 4 to the hustling Indians.

Cy Williams' single in the 13th scored two runs and beat the Reds 7 to 6.

HOUSTON.—Setting concrete without a pile driver may be tried in the ship channel here as the result of a visit to Houston of E. Bignell, Lincoln, Neb., inventor. Bignell's plan is to cast a concrete pile around an iron pipe, water is forced through and flows out at the bottom and sides of the pile, loosening the dirt, The pile will then sink of its own weight. Captain Charles Crotty, assistant director of the port declared the plan sounds reasonable.

HOUSTON.—Hill Huisley went to the jail to arrange for the release of a friend. Not only did Huisley not get his friend out but instead, was assigned to a cell himself. His arrest was made on a forgery charge.

"Prohibition has done more for thrif than all the Poor Richard almanacs ever printed and more for 'better, safer work' than all 'safety first' propaganda; it is the first and only 'all wool' thinner out of jails, poor houses and asylums."—The Index, Williamsport, Penn.

The Eleventh Danish Temperance Congress was held at Aarhus March 31st. The discussions showed harmony in interpretation of ways and means, and confidence in the future.

Find Bones Of First Americans

LOS ANGELES, Cal. (United Press.)—The petrified human remains known as the Haverly group, found recently at a depth of 23 feet during excavations on the outskirts of this city, are believed to be those of men who lived on this continent from 10,000 to 25,0000 years ago.

This opinion was concurred in at a recent meeting of scientists held in Washington, D. C., according to W. A. Bryant, director of the Los Angeles museum, who attended.

Dr. Bryant presented the report of Dr. Chester Stock, head of the department of paleontology of the University of California, to the scientists. The report stressed the point that the accumulation of 23 feet of sedimentary material found above the remains has apparently taken place after their lodgment where they were found.

In an investigation now being conducted, it is hoped to more closely determine if the bones are of pleistocence origin.

"The good women of the nation, by insisting in their own homes and elsewhere, will do much to maintain those civic standards without which a Republic can not live."—Hon Frank B. Willis, Ohio.

A crew from the car building shops of a railroad at Oneonta, N. Y. set what is believed to be a world's record by building a thirty-ton box car in fifty-two man hours. Eight men did the work in six and one-half hours.

RECEIPT FOR KILLING THE GRASSHOPPER

The hot and dry weather is said to be favorable to the farmers of this section who have had too many grasshoppers on their hands since the heavy rains of the prolonged wet spell. The pest made considerable inroads into a number of fields. Many tried the following recipe with success:

Wheat bran, 24 pounds,
White arsenic or Paris green, 1 pound,
Lenoms or oranges, 6 fruits
Low grade cane or sorghum molasses, 2 quarts,
Water, 2 gallons.

Mix the brand and poison thoroughly while dry. Dilute the molasses with the amount of water as named. Squeeze the lemon juice into this diluted molasses, then grind the rind of the lemons with a meat chopper and add this also to the liquid. Now mix the liquid thoroughly with the poison brand mixture. After an even mixture has been obtained, add more water and mix until a mash is obtained, so that after being squeezed in the hand, it readily falls apart.

Grasshoppers feed in the morning, and as the bait loses its attractiveness when dry, it should be applied so as to be as moist as possible at this time. It will therefore be best to put it out about sunrise. Provided the ground is not so hot and dry as to remove the moisture during the night, it may be put out late in the evening in case the area to be treated is too extensive to be quickly covered in early morning. The mixture should be scattered, as if sowing seed, by hand, or by any trype of seeder capable of distributing it. The amount given in the formula should cover about five acres.

Where the hoppers have become distributed over the cultivated field, the entire area should be sown, and the application repeated in a few days if necessary. If the hoppers are found to be advancing from pasture lands, distribute the mash in front of their line of march for a distance of a couple of hundred yards, keeping also the margin of the pasture land treated daily until the danger of damage has passed.

The Nominee

(Continued from Page 1)

dent Harding, he took the oath of office from his father amid a setting as romantic and as fitted to the American tradition of simplicity and democracy as any recorded in the nation's history. He stood up in the vague light of kerosene lamp, in the parlor of a Vermont farm house, far from any suggestion of majesty or pomp, close to the eternal hills, and there accepted the responsibilties which thus had come upon him out of the night.

It was on a farm in the same state that he was born, amid the patriotic manifestations of July 4, 1872. He came of Puritan stock, and his youth was no stranger to hard work and to the homely training of the region and period. He got out of the primary school and was sent to the Block River and St. Johnsbury academies, as preparations for Amherst.

His classmates at Amherst couldn't quite make Coolidge out. He had by this time developed Yankee reticence to a fine art, so that, though he was not regarded as unfriendly or a "grouch," he was not among the popular boys in the college. But he was liked. The fellows couldn't seem to get close to him, that was all. He has always trod a lonely path, judged by other people's standards, but there are evidences that he never felt lonely.

After his graduation, Coolidge was admitted to the bar, and with characteristic particicality, while practicing his profession, he devoted himself at once to the feld in which his inborn faith told him his destiny lay—politics. He started at the bottom of the ladder, and from that time on he moved up, step by step, to the amazement of politicians and laymen alike, who never have understood the secret of his success. Perhaps they do not properly estimate the power of faith.

Elected Governor.

Minor offices in Northampton, Mass. were followed by election to the Massachusetts House. Then he was twice mayor of Northampton, and after that presiding officer of the state senate. In 1915 he became lieutenant-governor of the state, and in 1918 governor.

The Boston police strike brought him into national prominence. There has always been some dispute about Coolidge's part in putting it down, but what ever the facts about that, it made Coolidge's name known and opened the way for his nomination as vice-president.

Outwardly there is little change in Coolidge since he became President. He seems not to have taken on or lost a pound of weight. His habits have undergone no change. He has adopted no new practices, political or personal, despite his changed circumstances. Just as he clung to his faith in his early years, so today he clings to the ways of his youth.

Washington subjected him to a cold and somewhat cynical examination, but he seemed unperturbed by it. His callers soon found that, when he thought the occasion called for it, he could display a sense of humor. He proved to be astonishingly well informed.

Mrs. Coolidge, who, as Grace Goodhue, a school teacher, was once warned by a White House guard not to touch the gold piano in one of the White House State apartments, fitted into Washington's official social life instantly. The two Coolidge boys, John and Calvin, Jr.—the President's only known hobbies—continued their attendance at Mercersburg Academy.

The Eleventh Scandinavian Temperance Congress will be held at Christiania August 6-10.

U. S. World Flier Forced To Land

SAN FRANCISCO, June 12.—Lieut. Lowell Smith, commander of the American round-the-world flight, was forced by engine trouble to land at the little coast town of Hue in French Indo-China yesterday, according to wireless advices received here today.

Smith was leading the flight down the coast from Haiphong to Turane when the trouble developed and he was forced to land.

Lieutenants Leigh Wade and Eric Nelson continued on their southward course and made perfect andings at Turane.

Anxiously they commu[illegible]ated with their commander and were advised that Smith and his mechanic were safe and that they were not in need of immediate assistance, but that the motor of the "flag ship" was damaged beyond repair.
